

## OneStream Software and Primexis announce their partnership to help organizations conquer complexity and drive finance transformation across EMEA

Primexis Industry leader and OneStream partner brings deep domain expertise and extensive implementation experience to the Office of Finance

**Paris, March 3<sup>rd</sup>** – [OneStream Software](#), today announced a strategic partnership with Primexis to transform Corporate Performance Management (CPM) processes for sophisticated organizations around the globe. This new partnership will provide industry-leading software and implementation expertise while driving efficiency in the Office of Finance.

OneStream provides a unified, platform that simplifies and aligns financial consolidation, planning, reporting, analytics and financial data quality. OneStream eliminates the risk and complexity of data integration, validation and reconciliation between multiple products, applications or modules, and makes non-integrated CPM suites a thing of the past.

*"By becoming an implementation partner for OneStream, we are able to offer our clients an innovative solution to manage their financial performance. This solution is particularly interesting for clients who want to replace their previous solution. Our experts assist clients in implementing OneStream's unified platform, enabling them to optimize their existing consolidated accounts and reporting production processes while integrating the FPA and xPA components, which had traditionally been managed through dedicated third-party solutions," says Olivier Gentile, Group Information Systems Partner at [Primexis](#).*

*"We are thrilled to announce our partnership with Primexis and extend our presence in France," said Eric Vidal, Regional Director Sale EMEA at OneStream Software. "Each OneStream partner undergoes rigorous training to ensure full compliance with our mission of 100 percent customer success. We believe that a strategic partnership with Primexis is ideal for the evolving needs of our customers on a global scale and together we will provide our shared customers with an Intelligent Finance platform that eliminates inefficiencies and allows them to Lead at Speed."*

### About OneStream Software

OneStream provides a market-leading intelligent finance platform that reduces the complexity of financial operations. OneStream unleashes the power of finance by unifying corporate

performance management (CPM) processes such as planning, financial close and consolidation, reporting and analytics through a single, extensible solution. We empower the enterprise with financial and operational insights to support faster and more informed decision-making. All in a cloud platform designed to continually evolve and scale with your organisation.

OneStream is an independent software company with over 1,000 customers, 200 implementation partners and 1,200 employees, our primary mission is to deliver 100% customer success. To learn more visit [www.onestream.com](http://www.onestream.com).

### **About Primexis**

Primexis, a French financial consulting and accounting firm, provides long-term, continuous performance improvement support to financial departments of large companies and intermediate-sized enterprises.

For several years, Primexis has been regularly rewarded for its performance, being considered a major player in France according to the Accounting Profession rankings, while Décideur Magazine qualifies Primexis' Consolidation and Reporting team as essential in its field.
