

PRESS RELEASE – ACQUISITION

Paris, France, January 20, 2026

Primexis strengthens its banking expertise with the acquisition of MLAdvisory

Primexis, a key player in financial consulting and specialized accounting, announces the acquisition of MLAdvisory, a firm recognized for its expertise working with finance and risk departments, specifically on regulatory challenges.

This merger allows Primexis to increase its ability to support banking institutions across all their regulatory and prudential transformation programs, from defining requirements to operational roll-out, ensuring complete continuity between consulting and delivery.

Historically recognized for its expertise in operational assistance for finance departments, Primexis is now expanding its service offering with MLAdvisory's expertise in banking prudential regulations, ALM, scarce resources management, risk modeling and management, and finance & risk architecture transformation.

Primexis Group now has nearly 450 employees, including around 100 consultants dedicated to the banking and insurance sectors.

MLAdvisory joins Primexis Group as a subsidiary and keeps its identity and operational governance. Éric Auclair, Managing Director at MLAdvisory, continues to manage the structure and works in collaboration with Jean-Christophe Lemière, Managing Director at Primexis, in order to create synergy between the two entities.

Through his strategic vision and leadership, Charles Morel, founder of MLAdvisory in 2013, has built a leading firm specializing in supporting the finance and risk functions of banking institutions in France. As part of this merger with Primexis, he is leaving his functions to focus on new projects. We would like to thank him for his commitment and contribution to the firm's development and wish him every success for the future.

“Increasing regulatory requirements are deeply transforming finance and risk departments of banking institutions. This merger allows us to respond to these challenges with increased expertise and a proven ability to deliver, by drawing on the complementary strengths of our teams. We are delighted to welcome the MLAdvisory team to Primexis and work together to build a shared vision focused on client proximity and operational excellence.”

— **Jean-Christophe Lemière, Managing Director at Primexis**

“With Primexis, we have found a partner who shares our values and our vision of the business, with expertise that strongly complements our own. This partnership allows us to expand our ability to serve our clients by combining regulatory expertise, project management, and operational roll-out. It also creates a solid framework to develop our teams, who are called on to work on increasingly complex and structuring projects.”
